

Oxford Instruments

Oxford Instruments pursues responsible development and deeper understanding of the world through science and technology

Hacker Day : Build it Forward Sat 3rd Dec 2011, 10am to 4pm

Come and join us for the day to solve the problems that have been “bugging you” on your electronics and software build projects. You can join groups to work on **3D printer builds** or bring your own project with you.

Build a RepRap: The self-replication machine.

You will have access to the best equipment including: quality soldering irons, oscilloscopes, test and measuring equipment, hand tools and components.

But more importantly there will be other engineers to share your ideas, solutions and problems with. Refreshments and lunch will be provided.

Location: Oxford Instruments, Tubney Woods,
Nr Abingdon, Oxon, OX13 5QX. For information
